Kentucky's Monument to Fallen
Heroes at Chattanooga.

Unveiled By the Governor's
Daughter With Formal
Ceremonies.

Chattanooga, May 3.—The beautiful monument erected by the state of Kentucky in Chickamauga Park was dedicated this afternoon with imposing ceremonies. At noon Gov. Bradley and his staff and other prominent Kentuckians left the city for the Park, and promptly at 2 o'clock the exercises began. The preliminary portion of the programme consisted of music—one of the numbers being "My Old Kentucky Home"—and an impressive invocation. Maj. Thomas H. Hays, of the Kentucky Commission, in an eloquent address then formally tendered the monument to Gov. Bradley.

Following this address Miss Christine Bradley, the Governor's beautiful daughter, gracefully unveiled the shaft. Gov. Bradley next formally accepted the monument and transferred it to the government.

WEDDED WEDNESDAY.

Mr. Abernathy and Miss Donaldson Quietly Married and Leave
for the South.

Mr. Henry H. Abernathy and Miss Lida Belle Donaldson were married at the bride's home at nine o'clock Wednesday morning and left via Nortonsville and the I. C. Railroad for a bridal tour to New Orleans. They will return tomorrow and be at home at their handsome residence on South Virginia street. Mr. Abernathy is a leading tobacconist and his bride is one of the most cultured and charming young ladies in Hopkinsville.

DUFFY-BYARS.

Another Wedding Announced
of Prominent Young People.

The approaching marriage of Mr. John C. Duffy to Miss Nannie Byars is announced for Monday, May 15th. The newly married couple will take a tour of two weeks and be at home on South Main street after June 1st.

Mr. Duffy is a well-known young lawyer of fine promise and his bride-to-be is an accomplished and handsome young lady, a daughter of Mrs. Sallie H. Byars.

COURT AT EDDYVILLE.

A Small Docket—Commonwealth
Business Finished up.

Circuit Court convened at Eddyville Monday. The docket is the smallest for several years. The Commonwealth business was finished up Wednesday and it is thought that in a few days more the civil docket can be cleared.

CUT WORM PLAGUE.

Acres of Corn Being Cut by These
Pests.

Cut worms are playing havoc with the young corn in some sections of the county. Some fields have been almost destroyed by the pests and in a few cases the entire crops will have to be laid off and replanted.

Continued warm weather, however, would have the effect of cutting short the destructive work of these insects.

New Member Installed.

The board of asylum commissioners held their regular monthly meeting Tuesday, when Mr. Gabe L. Campbell, the new member, was installed. There was no other business of special importance transacted.

Visit of several weeks to relatives.

WANTED TO DIE.

Neely Lewis, of Crofton Takes a
Big Dose of Laudanum.

Tired of Life Because He Had No
Friends Who Cared
For Him.

Neely Lewis, a well known young man of the Crofton neighborhood, attempted to take his own life Monday. He swallowed a large dose of laudanum and it was with the greatest difficulty that he was aroused from the stupor two hours after swallowing the drug.

Young Lewis is the son of the late James Lewis, and since the death of his parents has been making his home with Mr. Thomas Davenport, his cousin. Mr. Davenport and his wife left home for a short while Monday and when they returned they found Lewis asleep in bed and breathing with great difficulty. A vial containing laudanum was near the bed, and Mr. Davenport at once suspected the young man of having taken some of the poison. Before swallowing the drug Lewis wrote a note and placed it over the door, in which he stated that he had no friends and that no one cared for him, and told them goodbye. After being aroused from the stupor it is reported that he said that "they had just as well let him alone," as he was going anyway. He is about 21 years old.

ASK \$1,000 DAMAGES.

Claims He Called the "Con," And
Begged Him to Stop.

Mr. A. H. Harris, of Oak Grove, has filed suit against the L. & N. for \$1,000 damages. He alleges that one day in April he was informed that his sister was at the point of death in Todd county and went to Oak Grove to take the train. He claims that the train passed the station without stopping, notwithstanding his entreaties to the conductor to stop, that he might take passage, and that as a consequence he endured great mental anxiety, etc.

KILLED HER BABY.

A Woman Arrested in Daviess
County for a Terrible Crime.

Owensboro, Ky., May 2—Ella Harralson, colored, is charged with killing her 20-months-old child in this county Sunday afternoon by crushing the baby's skull. She was arrested and brought to this city and lodged in jail. The feeling in the community where the crime was committed is said to be strong against the woman. The woman is thought by many to be crazy. No excuse was given for the murder.

SNUB FOR PERRY.

His New Wife Will Not Be Received
into Lexington Society.

Lexington, Ky., May 3.—Mr. and Mrs. Perry Belmont are expected here to-night in their private car over the Chesapeake and Ohio. They come to look over Mr. Belmont's thoroughbreds, quartered at Hal. P. Headley's Beaumont farm. Mrs. Headley, formerly Miss Annie Lee Byrne, and a leader in Lexington society, will not entertain them.

SUGAR TRUST.

Turns The Screw on the Public
Thumb.

New York, May 3.—The American Sugar Refining Company today advanced the price of all refined sugars sold by it $\frac{1}{4}$ cent per pound. Standard granulated was thus placed at $\frac{3}{4}$ cents, against $\frac{5}{4}$ cents yesterday, and $\frac{5}{4}$ cents a month ago. The move was quickly followed by all independent refineries.

business. His two younger brothers were associated with him in the business. John White, the workman who was injured, was formerly a peddler in a small way, and lived in the neighborhood.

Drs. Lovan and Williams, of Crofton were summoned and went at once to the scene and rendered

The injuries to T. T. McKnight are liable to prove fatal. In addition to the mangled arm he is very badly hurt internally and is spitting up blood. The latest report yesterday afternoon was that there was but little hope of his recovery.

T. T. McKnight and White were on top of the boiler shed, over the boiler, and were blown up into the air nearly forty feet and the wonder is that they escaped alive.

Besides the four men mentioned above three others were more or less injured.

Eph Ausbrook was hit on the head by flying debris and his scalp cut, but he was not disabled. Jim Sewell and Richard Davis were slightly injured in the same way, being more or less bruised.

The boiler had been started up at 3 o'clock by Barrett McKnight. About 7 o'clock he noticed the water was low and turned in more cold water. There was a splutter inside the boiler followed by a terrific tearing loose. Barrett and Eff were close together. The first was blown 100 feet from where he was standing. His bowels were torn out and scattered along the way. His left leg was torn from his body and carried 50 feet further on.

Eff was carried through the air and his neck snapped like a reed in the wind. He was not mangled. The shed with the other two men was raised up and scattered to the winds.

The boiler was hurled through the air and 150 feet away struck a hickory tree as large as a man's leg and cut it off 30 feet from the ground as smooth as a knife.

The mill itself was utterly demolished, the property loss being about \$1,000. Barrett and Eff McKnight were unharmed. T. T. McKnight and John White are married. The former was married about one month ago to a Miss Ely, of the same neighborhood.

The coroner left for the scene yesterday afternoon to hold inquests over the dead bodies.

will occur at the City Court room and only white voters will participate.

The council will appoint officers to-night to conduct the election.

BIG CROWD

Attended The Celebration at Little River.

A large crowd attended the circle meeting at Little River Saturday and Sunday and the affair proved to be quite a success. On Saturday Rev. A. W. Meacham was present and there were appropriate exercises celebrating the 60th anniversary of his ordination. A number of people from this city attended.

Mary Wills sues her husband, George Wills, for divorce, alleging abandonment. The parties are colored.

A GREAT REVIVAL.

Rev. G. W. Riley Holds a Remarkably Successful Meeting at Clay—Seventy-Five Conversions!

Rev. G. W. Riley, pastor of the Baptist church in this city, has just closed a remarkably successful meeting at Clay, Webster county.

During the meeting there were 60 admissions. In addition to these admissions and conversions there were 75 or 100 reclamations. As an illustration of the wonderful power at work in that community during the revival it is said that fifteen of the conversions occurred at the homes of the converts between the hours of midnight and 2 o'clock in the morning.

The membership of the Baptist church at Clay was doubled and a Sunday school organized with 100 members.

All in all Rev. Riley accomplished a great and glorious work and the influence of that meeting will be felt in that community for years and possibly generations to come. Indeed the influence for good left by this successful evangelist will never be lost but will spread wider and wider each succeeding year.—Morganfield Sun.

A JUROR'S REMARKABLE ERROR.

An incident occurred at the court house at McMinnville, Tennessee, the other day, says the Cincinnati Enquirer, that is unique in the criminal annals of the state. William Brown had been on trial for several days, charged with the murder of his wife, and the jury returned a verdict of murder in the first degree, which means hanging in that state. Just as the judge was about to pronounce sentence, one of the jurymen stated that he had passed through the jury under the impression that it was John, the brother of the murderer woman, who was on trial, and not the husband, and that he viewed the testimony from an entirely different standpoint than he would had he thoroughly understood the case. This development necessitated setting the verdict aside, which the judge did after some rather pointed remarks at the sovereign who had a thorough five days of an exciting criminal investigation and had not been able to learn who was on trial,

Scribner's Magazine for May has secured from Major-General Leonard Wood, the military governor of Santiago, the first official account of the great work which has been accomplished in that province. It is practically the making of a State by a military dictator, all of whose purposes are benevolent, and who has no legislature or other authority—consulting his power directly from the President of the United States. General Wood's narrative, which is the only thing that he has written, is marked by a forcible directness and modesty in telling of the things accomplished. The way in which the city was cleaned, the indigent relieved, the streets repaved, schools established, and all of the machinery of a civilized government instituted, is a remarkable record of achievement in military government. The illustrations contrast the old Santiago with the new, and show the power of regeneration.

The star of a new hero has risen in the East. His name is Funston and he is a little red-headed colonel from Kansas, who weighs only 95

pounds. He swam a river with eight men and his picked nine knocked out several thousand of the enemy on the first base. The very audacity of the thing paralyzed the Filipinos with fear and threw them into a panic. Funston is a volunteer and his exploit will win for him a Brigadier General's commission. As he is 12,000 miles away and has a bride with him in Manila, he will probably escape the labial assaults of enthusiastic females that drove Hobson out of the United States.

BAPTIST CHURCH SPLIT.

Youths Refused to Apologize Publicly for Stealing Chickens.

Owensboro, Ky., April 28.—The refusal of several young members of the Macedonia Baptist church in this county to publicly apologize and express repentance for appropriating neighbors' hens and having chicken stew in the woods has caused a serious split in the congregation. The Reverend W. H. Dawson has resigned as pastor, and forty-one members have withdrawn with their families. The young men privately apologized and paid for the poultry, and the split in the church arose over a question as to the sufficiency of this action.

FOWLS CURE DIPHTHERIA.

Novel Remedy Is Used With Remarkable Success in Indiana.

The latest and decidedly the most noted cure for diphtheria has been discovered in Anderson Ind., successfully tested. It consists in using chickens as poultices. The chickens are killed and while yet warm the breast is split open and through the opening the feet of the child are pushed. In a few minutes the fever from the child passes into the warm chicken, heats it still more and a very offensive smell arises from the chicken. After about six or seven such poultices have been applied there is a very noticeable result.

Children that have been unconscious have been brought out of danger by a few as four of these poultices. The tests have been so successful that the chicken cure is now accepted by all.

GENERAL'S SKULL TAKEN.

Young Boys Are Threatened With Prosecution at Lexington.

At Lexington, Ky., George Marshall dug away a pile of earth and instead of finding Indian relics as he supposed, discovered a large vault containing decayed coffins and the skeletons of General George Trotter and members of his family. A number of boys visited the vault, and carried away the skull of Gen. Trotter and the plate which marked his coffin. The descendants of the Trotter family threatened prosecution if the bones are not returned. Gen. Trotter was distinguished in the war of 1812. Died in 1815.

Notice to Overseers.

All overseers of the different sections of the various public roads of Christian county are hereby authorized to call out their hands and work all roads, but not to use any teams, plows or scrapers on portions of said roads that have been worked with the country graders, unless so ordered by the supervisors.

The above order must be complied with by the 15th day of June, 1899, and if not, overseers will be reported to the County Judge.

All overseers are also authorized to report to the road supervisors the number and kind of tools in their possession that belong to the county. Since there are no sections of roads in the county that have no overseers, then it is required that some interested person make such facts known to the supervisors or county Judge. When such facts will have been made they will receive immediate attention. Hoping the above orders and request may be adhered to we remain your faithful supervisors,

Shipping Live Fowls.

I have seen lately as I have seen and commented upon year after year, during the shipping for many years past, large number of crates of live poultry sent by express, the crates weighing twice as much as necessary. Many times they consist simply of a box made out of lumber at least an inch thick, the top covered with slats or narrow pieces of board, the latter often twice as thick as necessary. These crates should be made just as light as possible to answer the purpose. The bottom should be tight, all the rest bottomed, and the narrower the slats the better. Lathes make the best material. The coops should not be so large that two men cannot handle it. It is better if a slatted partition is put through the middle, as this divides the fowls, putting fewer together and keeps them from all sliding into one end of the coop in a heap if the coop is tipped up on end. Many fowls are suffocated because of proper precautions not being taken. Food and water should be provided, and the coops should not be overcrowded. Great loss results from overlooking the latter precaution. The fowls should be graded also, the best grades being put together and chicks and fowls packed separately. Don't pay heavy express charges on boxes made of such thick, heavy lumber.—Rural New Yorker.

The Surplus is Gone.

Robert E. Pattison was the last democratic governor of Pennsylvania, and a mighty good one. When he retired from office in January, 1895, the state treasury had a surplus of between \$6,000,000 and \$7,000,000. Where are those millions now? Ask of the winds. Instead of a surplus there is a deficit of over \$5,000,000. Here is a difference of over \$10,000,000 as a result of having men like Quay in control of the affairs of the state.—Register.

BOB LINCOLN BUYS IT.

The Birth Place of Abe Lincoln Said To Have Been Sold to His Son.

It is reported at Hodgenville that the recent purchase of Mr. David Cearl, of New York, from A. W. Danner, of the farm on which Abraham Lincoln was born, was made in the interest of Robert T. Lincoln.

There are reports to the effect that Mr. Lincoln has the co-operation of several Northern and Eastern capitalists in his efforts to have a home for the surviving soldiers of the Civil War erected on the old Lincoln farm.

The historical old log cabin in which the President was born, and which was later taken to Nashville during the Centennial Exposition in 1897, may in the near future be brought back to the farm from New York, where it was taken at the close of the centennial.—New Haven Echo.

THE BACHELOR.

Returning home at close of day, Who gently chides my long delay, And by my side delights to stay? —Nobody.

Who sets for me the easy chair, Spreads out the paper with such care, And lays my slippers ready there? —Nobody.

When plunged in deep and dire distress, When anxious cares my heart oppress, Who whispers hopes of happiness? —Nobody.

When sickness comes in sorrow's train, And grief distracts the fevered brain, Who sympathizes with my pain? —Nobody.

Chicago Birds Win the Cocking Main.

Baltimore, April 28.—The big cocking main between birds of Chicago and Providence, R. I., which was pulled off here early to-day, resulted in favor of the Western contingent by a score of seven fights to eight. The conditions were fifteen contests at \$100 each, with \$1,000 on the main itself.

What We Do.

We don't keep goods in stock. We don't buy any stocks. We pay but very little rent and but a small amount of taxes. But we will buy and deliver to you any purchasable article in existence cheaper than you can get it elsewhere for the very reasons above enumerated. Of course if we carried a large stock and had heavy expenses, we would have to make big profits.

Total abstinence is not required by this convenient pledge—merely a promise "not to treat."

ILLINOIS CENTRAL.**More Talk of the Proposed Road to Nashville.**

New York, April 30.—President Fish, of the Illinois Central, has finished an inspection trip over the Peoria, Decatur and Evansville, and it is understood that the Central is now negotiating for the purchase of the Peoria, Decatur and Evansville, and will be running trains from Chicago to Evansville by Jan. 1. The plan is to reach Princeton, Ky., and build from Hopkinsville. The new line to Nashville would provide another competing north and south line and enable the Illinois Central to compete for business now monopolized by the Evansville route. With the Peoria, Decatur and Evansville, a northern outlet would be had for Evansville business.

GREEN'S TESTS SUCCESSFUL.

Telegraphed Without Wires at a Distance of a Mile and a Half on Water.

Chicago, April 23.—Prof. Jerome J. Green continued his experiments in wireless telegraphy to-day with uniform success. He sent signals from the life-saving station to a moving tug on the lake for a distance of a mile and a half. At every intervening point between that and the shore the dots came distinctly and regularly in response to signals whistled from the boat to his assistant at the sending station. As the crowning feat of the day, the relay on the tug gave out in succession the letters which form the name of the great discoverer, "Marconi."

Non-Treating Club.

"When you want a drink take it, and don't imagine you will offend any one by not asking eight or ten to join you," says the New York World.

This is the chief maxim of the "Non-Treating Club," an organization which, although only six months old, possesses a membership of over sixty thousand.

The particularly brilliant feature connected with this club which first appeals to the average man is its glorious possibilities for economy.

Total abstinence is not required by this convenient pledge—merely a promise "not to treat."

As the little circular accompanying the button which is the badge of membership states, "the treating habit, as every man in the world knows, is increasing rather than decreasing, and is responsible for the making of many drunkards."

"Have one with me" is a phrase that many a man has used because of the desire not to appear small and conform to the usages of drinking men, and is frequently accepted more to avoid discussion and not to give offense than because the beverage is desired."

The custom which is being fought against is that one which entails every man of a group of eight or ten treating the others, so that the result is that each individual partakes of eight or ten drinks, which, presumably, is a larger quantity than he desires, and certainly is more than is good for him.

As nearly as the layman can get at it the object of the society is to accept a drink if it is offered, but not to feel under any obligation to pay it back. A view of the mystic symbol displayed at the critical moment when the drink is "on you," obviates any obligation on your part.

Naturally thousands have rushed to avail themselves of these peculiar privileges.

The society was organized in Chicago September 5, 1898, under the direction of E. T. Monett, who is the President.

The New York State Branch is in charge of J. F. Reese, No. 168 West One Hundred and Thirty-fifth street, New York. All inquiries are referred to that address.

Many old soldiers now feel the effects of the hard service they endure during the war. Dr. Geo. S. Barnes, of Roselle, New York, claims, what say the hardest kind of service at the front, is now frequently troubled with rheumatism. "I had a severe attack lately," he says, and procured a bottle of Chamberlain's Pain Balm. It did so much good that I would like to know what you would charge me for one dozen bottles." Mr. Anderson wanted it both for his son and himself, and his family should have a bottle of it in their home, not only for rheumatism, but lame back, sprains, swellings, cuts, bruises and burns, for which it is unequalled. For sale by R. C. Hardwick, Druggist.

Hooping Cough.

I had a little boy who was nearly dead from an attack of whooping cough. My neighbor recommended Chamberlain's Cough Remedy. I did not think that any medicine would help him, but after giving him a few doses of that remedy I noticed an improvement, and one bottle cured him entirely. It is the best cough medicine I ever had in the house. J. L. Moore, South Street, Pittsburgh, Pa. For sale by R. C. Hardwick Druggist.

Dr. Thomas, Bishop of Worcester, was a linen-draper's son.

The most vigorous workers have "tired feeling" now and then. This feeling is caused by derangement in the stomach, liver and bowels. A few doses of PRICKLY ASH BITTERS quickly corrects the disorder and sends the blood tingling through the veins, carrying life and renewed energy through the system.

DEMOCRATIC TICKET.

For Railroad Commissioner,
J. FLETCHER DEMPSEY,
of Hopkins County.

Joe Blackburn has deferred his trip to Porto Rico.

Wm. Lees, col., was hanged by a mob at Osceola, Ark., for barn-burning.

Illinois Republican Congressmen have united on Hopkins for speaker and will give him their solid support.

All Sunday business has been stopped in Atlanta, under a new ordinance. Even fruit and cigar stands are included.

The gunboat Nashville will be at Cairo from May 6 to 9 and the I. C. will give half-rates to those who want to see the ship.

Jno. C. Wood was re-nominated for Railroad Commissioner in the Third District by the Republican convention at Richmond.

Ex-Senator Peffer, of Kansas, is now editing a country weekly at \$10 a month. At least a statement to that effect is going the rounds of the press.

Robt. Hodges has withdrawn from the race for representative in Lyon county. The remaining candidates before the Democratic primary are Gen. H. B. Lyon and Mr. R. F. Brightwell.

Mrs. Jane Rhea, widow of the late Albert G. Rhea, and mother of Congressman John S. Rhea, died at Russellville Monday. She was a sister of Elijah Hise, in his time one of the leading lawyers of Kentucky.

A young doctor of Paducah, who is in charge of the smallpox patients, invites invitations to a number of his friends to attend a swell dining at the pest house, but all of the invitations were, strange as it may seem, declined with thanks.

The peace propositions from Aguinaldo's emissaries have not yet led to any definite results. Otis demands an unconditional surrender and refuses to recognize the Filipino government.

The lynching of one negro near Buffalo, N. Y., for stealing a purse and another near Bucyrus, Ohio, for raiding a hen-roost will probably furnish the sectional press of the North and East with material for more harangues about "Southern outrages."—Glasgow News.

The latest developments in the Perry Belmont-Jessie Sloan scandal show that Col. Bryan made no mistake in refusing to dine with Belmont, from a social as well as a political standpoint. Belmont married the Sloan woman in a few minutes after her husband rid himself of her in the divorce court.

The gubernatorial contest in Christian county is in a state of profound quiet that amounts almost to entire indifference this week. It may be the calm before the storm, but certain it is that nobody is tearing his shirt for any of the candidates at this stage of the game. If there has been any change at all, it is to Stone's advantage.

Gen. Miles resents the unfairness of the beef contract investigation and will likely ask congress to go behind the whitewash of the board of inquiry and investigate the whole scandal. Gen. Miles claims that 356 of his material witnesses were not subpoenaed at all, out of a total of 440 whose names he furnished. It was clearly the intention of the packed board from the first to suppress the real facts, but as it was enough was shown to convince the reading public that the investigation was a farce and the report a misrepresentation of the actual facts unintentionally brought out.

Every woman in the Independence Avenue Methodist church, Kansas City, removed her hat Sunday night before services began. A male member wrote a communication to one of the city papers, protesting against the hats, and the Ladies Aid Society took the matter up, and after long discussion, decided that the hats should be removed. The reform was to be inaugurated Easter morning, but the women backed down. The men were mean enough to say that it was because of the new bonnets. Sunday night a leading member of the congregation, as soon as she was escorted to her pew, ostentatiously removed her hat. Almost instantly every member of the Ladies' Aid Society present followed her example, and in a few moments all the other women did the same.

The heavy loss sustained by the farmers of Daviess county from impassable roads during the past winter have caused the Fiscal Court of the county to investigate the cost of stoneroads. This investigation is now in progress and is the first step in a work which, if properly carried out, will establish Daviess in the position to which she is justly entitled as one of the most intelligent and progressive counties in Kentucky.

Col. Fred Funston, the little Kansas volunteer, who won the fight at Calumet, has been made a Brigadier General for his bravery. This will be universally approved, but something ought also be done for Kelly and Twemby, the two privates, who swam the river under the fire of the enemy and fastened a rope to the opposite bank, establishing the line that enabled Funston and his men to cross on a raft and get at the Filipinos.

The Louisville Post has withdrawn its "support" from Gen. Hardin, giving as the reason that Hardin's home county nominated McDowell for Railroad Commissioner. The Post does Gen. Hardin an injustice. An obstreperous delegation from Mercer county knocked out Alexander's Louisville friends and gave McDowell the nomination.

The Missouri legislature is making it hot for the trusts. Since Attorney General Griggs announced that the States must deal with the trust evil, nearly all of the Democratic States have begun the work of suppressing the unlawful combinations.

Hon. G. W. Hickman, of McLean, who is the brainiest young Democrat in the State and Western Kentucky will be proud to back him for the position he seeks.

Editor Pulitzer, of the New York World, is in London and says Bryan will be renominated next year by the Democrats. If there is a Democrat in the United States who thinks otherwise he has not been located.

Chairman Jones is going to Europe for his health and committee man T. M. Johnson, of Kansas, will temporarily act as chairman of the Democratic national committee.

The race for Speaker is rapidly narrowing down to a contest between the East and the West, with Sherman, of New York, and Hopkins, of Illinois, as the contending candidates.

Twenty-eight of the one hundred Democratic nominees for representative have already been selected. Some of those who bolted the last caucus have been renominated.

Deafness Cannot be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous membranes of the Eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, deafness will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an infected condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

"Evil Dispositions Are Early Shown."

Just so evil in the blood comes out in shape of scrofula, pimples, etc., in children and young people. Taken in time it can be eradicated by using Hood's Sarsaparilla. In older people, the aftermath of irregular living shows itself in bilious conditions, a heavy head, a foul mouth, a general bad feeling.

It is the blood, the impure blood, friends, which is the real cause. Purify that with Hood's Sarsaparilla and happiness will reign in your family.

Blood Poison—I lived in a bed for two years, being ill all the time. I allowed small pox. It broke out all over my body, itching intensely. Tried doctors and hospitals in vain. What Makes Your Hair Gray?

Gray hair is starved hair. The hair bulbs have been deprived of proper food or proper nerve force.

Ayer's Hair Vigor

increases the circulation in the scalp, gives more power to the nerves, supplies missing elements to the hair bulbs. Used according to directions, gray hair returns to its original color in a few weeks, and soon it has all the softness and richness of youth. \$1.00 a bottle. At all druggists.

If you do not obtain all the benefits you expect from the hair tonic write the doctor about it.

Mrs. T. M. Jones, daughter Miss
Mary and Miss Louise Jones have
returned from a visit to relatives in

Parsnip Complexion.

It does not require an expert to
detect the sufferer from kidney
trouble. The hollow cheeks, the
sunken eyes, the dark, puffy circles
under the eyes, the sallow parsnip-
colored complexion indicates it.

A physician would ask if you had
rheumatism, a dull pain or ache in
the back over the hips, stomach
trouble, desire to urinate often, or
a burning sensation in the bladder;
after passing there is an unsatis-
fied feeling as if it must be at once
repeated, or if the urine has a brick-
dust deposit or strong odor.

When these symptoms are pres-
ent, no time should be lost in re-
moving the cause.

Delay may lead to gravel, catarrh
of the bladder, inflammation of the
stones, and sometimes requiring
the drawing of the urine with in-
struments, or may run into Bright's
Disease, the most dangerous stage
of kidney trouble.

Dr. Kilmer's Swamp-Root, the
great discovery of the eminent kid-
ney and bladder specialist, is a
positive remedy for such diseases.
Its results are rapid and sure, and it
is so easy to get at any drug store
that no one need suffer any length
of time for want of it.

However, if you prefer to first
test its wonderful merits, mention
the HOPKINSVILLE KENTUCKIAN and
write to Dr. Kilmer & Co., Bing-
hamton, N. Y., for a sample bottle
and book telling all about it, both
sent absolutely free by mail.

SEASON OF 1899.

To Our Friends. Another season of seed time is fast approaching, and we wish you will again use the old and favorably known JONES BRANDS or BONE and ANIMAL MATTER FERTILIZERS that have for many years done their full duty when applied to both Spring and Fall crops. The use of commercial Fertilizers is almost universal, and the experience of many years has proven conclusively that ANIMAL MATTER FERTILIZERS are the most complete plant food known, and the fact of putting ACID PHOSPHATE ROCK in a bag and branding it "DISSOLVED BONE" does not make it animal matter. Honest strictly pure Animal Matter Fertilizers cost more than rock gold, they are worth more, and we ask that you will believe the fact. Our goods go out under our guarantee, and we warrant this guarantee in writing. We have a good report in all parts of Ohio, Indiana, and Kentucky, where they are extensively used. We respectfully urge you to give the celebrated Jones Fertilizing Co.'s goods a trial on both Spring and Fall crops, and we know satisfactory results and future orders will certainly follow.

DAINTY PAPER SLEIGHS.

If You Go About It in the Right Way
You Can Make Very Pretty Ones
Out of Cardboard.

Wonder how many girls know how to make a doll's sleigh out of cardboard. Of course, in the winter the fine ladies of doddom love to dress in their furs and go sleigh-riding. And one good thing about it is that they do not have to wait for snow to come in the regular course of events. Then they command their servants (the little girls) to tear up enough white paper to make a fine, fluffy roadway across a cor-

THE PAPER SLEIGH.

ner of the nursery. Paper snow is the best in the world, for it never melts. And along such a white pathway the dolls may ride delightfully if they have the right sleds.

If you will closely study the following directions and the accompanying illustration, you may learn how to be your own wheelwright and make as many dolls' sledges as you have cardboard to supply the material. Here are the directions:

Take a piece of light pasted board, heavy card-board or the like, and flexible make the model shown in Fig. 1. Bend the four daps A, B, C, D, over the corresponding dotted lines, a, b, c, d, and fasten the edges r, s, v, w, and z to each other by means of a slip of paper with strong glue. Bend downward the runners, as Fig. 2 shows.

This sled may easily be covered with a small piece of bright-colored cloth, and a seat, as represented in Fig. 3, can be cut from some scrap of heavier card-board.

The artistic decoration of the sleigh is left to the maker's taste and fancy. —J. Christian Bay, in Chicago Record.

VERY FOND OF EGGS.

Little Africans Reptiles That Are Possessed of Truly Remarkable Swallowing Ability.

Among a lot of very interesting specimens of prepared animals sent to the Museum of Natural History at Paris by Father Guilleme, a missionary in the Upper Congo country, there is no more remarkable specimen than that of a snake swallowing eggs which excited uncommon interest. The most remarkable part is the relative size of this snake and its common food. The adder is rather small, it is seldom longer than 28 inches, and its thickness never exceeds half an inch. Yet it feeds regularly on duck eggs, the smaller diameter of which is about one-half that of the snake. How this snake can eat such an egg into its mouth is difficult to understand, and the aspect of these reptiles while swallowing the eggs is most strange. The only way to account for this peculiar manner of swallowing whole eggs is the presence in the neck, just back of the head, of pairs of pointed bones pointing backward, which grip the esophagus. These not only assist to hold the egg in place, but act like a saw. When the egg has advanced far enough their pressure will cut the egg; its contents continue into the stomach, while the empty shell is crushed afterward and thrown out through the mouth.

While in the act of swallowing the egg the snake was found to be dead; it is the almost in a state of complete inertia; it then looks very much like the bulb used by photographers for opening their shutters.—Philadelphia Record.

The Humor of a Prince.

The following anecdote illustrates the prince of Wales' sense of humor as well as his preference for short sermons when at church. A Scotch sportsman went to Balmoral by special command of the prince to be his gamekeeper. Naturally he was overcome with nervousness. He was waiting for luncheon after service when, greatly to his surprise, he was informed the prince wished to see him. Shaking hands with him warmly, the royal highness thanked him heartily for his sermon, especially for the beauty of it, adding: "My dear fellow, when you were a relief to me, I have known sermons so long here that the very collie dogs have gone up the pulpit stairs and yawned in the preacher's face."

The Height of Politeness.

The officers' mess of a crack regiment was the scene of an amusing bit of comedy. They were giving a dinner to a man whose bravery was more remarkable than his familiarity with the art of good society. When he was seated at the head of the table, immediately took up his own finger bowl and commenced to sip it. The colonel, who had been watching the table, immediately took up his own finger bowl and commenced to sip it. The colonel followed suit, and the guest realized what an error he had made. Can anything be imagined more truly polite?

MISS ESTELLE REEL.

A Charming Young Woman Whose Life Work is the Thorough Education of Indians.

Miss Estelle Reel, the first woman to hold the office of national superintendent of Indian schools, is now inspecting schools in Kansas and Indian territory. The commissioner of Indian affairs appointed Miss Reel last summer. At that time she was superintendent of schools in Wyoming. In discharging the duties of that office, and in her travels in the west she had become familiar with the Indians and their educational needs. Under her direction

MISS ESTELLE REEL
(National Superintendent of Indian Schools.)

an institute for the teachers of Indian schools was held at Colorado Springs this year at Los Angeles, Cal. at the same time that the National Educational Association convenes in that city. Miss Reel believes the Indians capable of great development. The government is doing great things for them in the schools set apart for their use. Of the 100,000 Indians in the United States 20,000 are of school age, and that is almost manual training, and it is needed in every grade of the schools. Miss Reel is now introducing this feature of work. Talking of Indian work, Miss Reel said: "The Carlisle school in Pennsylvania and the Haskell school in Kansas are the best-known Indian institutions. The girls are taught to sew men and women. They do not return to their blanket after being graduated, as has been said. There may be a few such cases, but statistics show that 76 per cent of the graduates make good use of their knowledge."

CHICKEN THIEF CURED.

How a Wide-Awake Chenglo Suburbite Broke a Pet Dog of a Pernicious Habit.

A resident of Morgan Park, who was recently induced to move to that Chicago suburb, was a good dog for a long time. This was the thing: his master, a creature, a splendid protection for his wife against tramps by daylight, while he was at work, and a guarantee of peace and slumber at night. A friend happening into his office said he had a mastiff puppy and a bargain was made instantly. The pup immediately began to establish a popularity. First his master's family and then the neighboring community gradually yielded to the wag of his tail and the softness of his hindquarters.

How this puppy can eat such an egg into its mouth is difficult to understand, and the aspect of these reptiles while swallowing the eggs is most strange. The only way to account for this peculiar manner of swallowing whole eggs is the presence in the neck, just back of the head, of pairs of pointed bones pointing backward, which grip the esophagus. These not only assist to hold the egg in place, but act like a saw.

When the egg has advanced far enough their pressure will cut the egg; its contents continue into the stomach, while the empty shell is crushed afterward and thrown out through the mouth.

While in the act of swallowing the egg the snake was found to be dead; it is the almost in a state of complete inertia; it then looks very much like the bulb used by photographers for opening their shutters.—Philadelphia Record.

CURING A BAD DOG.

(Wherever the Puppy Went, the Hen Was Sure to Go.)

But about the time of the advent of Mr. B.—pup, says the Chicago News, chickens in the park began to frequent the hen yard, laying about in great numbers, and finally self-elected detectives traced the feathers to the kennel of B.—'s pup.

Mr. B.— was heart-broken, for everyone was greatly attached to the dog, and he was reluctant to dispose of him. Yet he could not afford to pay for all the chickens in a thriving suburb. Finally he decided to get rid of the pup, and sent himself. Coming home early one afternoon he caught the mischievous master standing over an old hen. Mr. B.— took the hen home, and, tying its feet to a strong rope, attached it securely to the dog's collar. Everywhere the puppy went the hen was sure to go and after three days the dejected countenance of the dog told Mr. B.— that a cure had been effected.

AXTEC GIRLS ARE CHARMING.

The feminine direct descendants of the Aztecs are tiny creatures, exquisitely formed and refined in feature, says the Philadelphia Times. They carry the hand-bags and upbraid the gaudy, full-blooded Indians, their skins are not red, but a clear, smooth copper color that shines like gold in the sun; their hair is coarse and black as ebony, and they are decorated with bright feathers and gay ornaments. These women make the most wonderful pottery, and their embroidery is superb. They have kept the old Aztec forms and decorations in their art, and they also weave wonderful baskets and do exquisite embroidery.

Secret of Beauty

is health. The secret of health is the power to digest and assimilate a proper quantity of food. This can never be done when the liver does not act its part.

Do you know this?

Tutt's Liver Pills are an absolute cure for sick headache, dyspepsia, sour stomach, malaria, constipation, torpid liver, piles, jaundice, bilious fever, biliousness and kindred diseases.

Tutt's Liver Pills

We have a limited amount of these, but men invariably have it in unlimited quantities.

HAS NATURE WARNED YOU?

Nature herself calls in the early garbs of life, the development chord to vibrate to this, the most delightful of all springtime and how do we know? The forewarning of the forewarning of Chills, Malaria and Typhoid fever is the first symptom of the disease. It is an indication of sickness; avoid this; consult us for advice costs you nothing, Dr. Caristed's German Liver Powder, Take follow by procuring a bottle of Yucatan Chili Tonic, following the directions and after two weeks you will feel the difference, and when the atmosphere is full of germs, it is necessary and above when your system warns you, take a dose. These Remedies are stock and sold by Anderson & Fowler.

If there were no other fools in the world we would be more dissatisfied with ourselves than ever.

Another case of Rain-sickness Cut by Chamberlain's Pain Balm.

My son was afflicted with rheumatism which contract'd his right limb until he was unable to walk. After using our and his friends of Chamberlain's Pain Balm he was soon able to be about again. I can heartily recommend it to persons suffering from rain-sickness.—J. SNIDER, Freed, Cuban on Cu. W. Va. For sale by R. C. Hardwick, Druggist.

It is too late to complain when a thing is done.

I have seen a sufferer from chronic diarrhea. Even since the war did I have such a complaint. At last I found one remedy that has been a success as a cure, and that is Chamberlain's Pain Balm. Call and Chamberlain's Remedy.—P. E. GRISWOLD, Gales Mills, L. I. For sale by R. C. Hardwick, Druggist.

Knowledge directs practice, yet practice increases knowledge.

PICKLED ASH BITTERS cures the kidneys, regulates the bowels, tones up the stomach and purifies the bowels.

Columbus the discoverer of America, was the son of a weaver.

Between the ages of fifteen and forty-five, the time when womanhood begins and motherhood ends, it is estimated that the aggregate sum of money spent by women over ten years of suffering, steal the bloom from the eyes, the fairness from the face. They wrinkle the record in the form of eyes and wrinkle. What a boon then to woman, is Dr. Pierce's Favorite Prescription. It promotes perfect regularity, dries up debilitating drains, heals ulceration, cures female weakness, and establishes the delicate womanly organs in vigor and permanent health. No other medicine can do for woman what is done by Dr. Pierce's Favorite Prescription.

What Dewey did to the Spaniards the Milwaukee did for their competitors in Christian county last year.

Two registered prescriptions at Anderson & Fowler's and prescriptions compounded day or night.

Don't forget that the Milwaukee binder is the only machine that trunks without bolts.

When wanting a nice package of chocolates and bon-bons call at Anderson & Fowler's and get the Plows' brand, the best on market.

See the Milwaukee binder at Watkins & Edwards', the only machine that is carried on a coil spring, which relieves the bearings in rough ground.

Mr. J. T. Hargrave, who has been with L. L. Elgin for several months, can now be found with the popular drug house of Anderson & Fowler, where he will be glad to have his friends call.

Remember when in Hopkinsville don't fail to see the Milwaukee mower, the only perfect mower on the market.

Farmers, please remember that there are over 200 Milwaukee machines now running in Christian county and giving perfect satisfaction. Call on Watkins & Edwards and they will give you names. This means 200 agents.

Have your clothes made, cleaned and repaired by Joe N. Fowright, Merchant Tailor, W. 7th street, opp. New Era office. The secret of getting a fit in a suit of clothes is to get a practical tailor to take your measure.

REAL ESTATE.

Lively Movements In Buying and Selling.

Sales Made By the Abstract Company This Week.

The Christian County Abstract Company has made the following real estate transfer this week.

Dr. H. H. Wallace to Dr. T. W. Blakey, residence lot on South Main.

Dr. Gayle G. Mosely to D. F. Burchett, 100 acres adjoining Casky.

Richard K. Tyler and Mary T. McCormack to J. W. Williams, residence and lot of the late Judge John D. Tyler on Walnut street.

John Boyd and wife to James W. Boyd, residence and lot on Elm street, corner of First.

James W. Boyd and wife to John Boyd, farm on Madisonville road about four miles from the city.

Nannie Starling and others to Lewis Starling, business lot on Clay street.

H. W. Breathitt and wife and John T. Edmunds to M. McNeilly, residence and lot in Long's addition.

Monroe Boyd and wife to J. S. Landreth, two residence lots on E. 13th street.

This is probably the largest and best lot of real estate that was ever sold in and around the city in so short a while.

Another Lot Sold.

Dr. T. W. Blakey has bought from Dr. H. H. Wallace the same building lot on South Main, adjoining Mr. J. W. Campbell's lot. Dr. Blakey will erect a fine dwelling house at once. The price for the lot was \$4,000.

HIS LAST DRINK.

Uncle Monroe Cannon Drowned In a Spring.

Fell Head foremost Into The Water While Stooping Over To Drink.

The dead body of "Uncle" Monroe Cannon, an old man in his 84th year, was found in a spring near Fruit Hill Wednesday. He had been missing since Monday, and probably met his death that day.

Mr. Cannon lived a few miles from Crofton but had for some days been visiting one of his sons near Fruit Hill. He was old and feeble, but able to walk about with the aid of a cane. He walked out every day unattended. On last Monday he left the house without letting the family of his son know where he was going and was never seen alive again. When he did not return at the usual hour it was not thought of seriously, as he was in the habit of dropping in at the houses of the neighbors. When he still did not return his son instituted a search, but nothing could be heard of the old man until Wednesday, when a searching party found his corpse as above stated. He had evidently been dead a day or two. His cane was sticking in the mud of the little spring branch and the old man was lying flat on his stomach with his face in the water of the spring. He had evidently knelt down to quench his thirst while walking in the woods and falling forward on his face was strangled in the shallow water of the spring. How this happened will of course never be known.

The old gentleman was a well-known citizen of the Northern portion of the county, the head of a large and respectable family. He leaves three grown sons and three daughters and a large number of grand-children.

VICTIM OF SPOTTED FEVER.

Ernest P. Pool Succumbs to the Disease After Brief Illness.

Ernest P. Pool, the oldest son of Mr. Lucien P. Pool, of Bainbridge, died Tuesday morning of Spinal Meningitis. He was only sick about four days, having been attacked with the dread disease on the afternoon of the 27th ult. He was 14 years old and a very bright and promising youth. He was exceedingly popular with his associates and his parents have the sympathy of a large circle of friends in their bereavement. The remains were brought to this city and laid to rest in Hopewell cemetery Wednesday morning.

FARMER'S HEAVY LOSS.

Handsome Residence and Several Outbuildings Destroyed.

The handsome dwelling of Mr. Thomas Wilkins, one of the finest residences in the Pilot Rock neighborhood, was destroyed by fire Sunday night, together with the entire contents. His meat house, filled with bacon, and several other outbuildings were consumed by the flames. Mr. Wilkins and family were away from home and it is not known how the fire originated. The loss will foot up probably \$2,500. He had \$1,000 insurance with J. M. Higgins & Son, of this city.

Miss Lucy Starling has returned from Cincinnati, where she has been taking a musical course.

Judge Jas. Breathitt has returned from Eddyville, where he had been attending Circuit Court.

Mrs. Max J. Moayon and children went up to Louisville yesterday to spend some time visiting relatives.

Mr. W. H. Cummings, Sr., of Cummings, Eggleston & Co., left for his home in New York Wednesday.

Mr. John S. Cook, of Elmo, is spending the week with the family of his son-in-law, Mr. W. T. Williamson.

Mr. Lex Hale, after a visit to his brother, Mr. W. S. Hale, returned to his home in Mayfield a few days ago.

Miss Mattie Sivley, of Church Hill, returned home yesterday, after a visit of several weeks to relatives at Cerulean.

Mr. T. E. Johnson, of the Hopkins Mercantile Co., who had been on a visit of several weeks to his old home in South Carolina, returned to the city Tuesday.

FOR BLOOD AND NERVES.

Greatest of all Spring Remedies—Paine's Celery Compound.

It makes new blood, and new nerve tissues.

A few steps to most any neighbor will tell you the plain truth about the amazing results that have followed its use.

Paine's celery compound is so far above any other spring medicine in its strengthening, nerve-restoring, blood-making, health-giving, lasting effects that it has no competitor. The old "cures" one by one, in the last few years have dropped by the way, until today the sales of Paine's celery compound in every civilized country are larger than those of all other spring remedies of all kinds combined.

Paine's celery compound is the one spring medicine endorsed by physicians—because it is the only known remedy, that for all run-down conditions of the nerves, brain, and tissues, and for purifying the blood (especially in the spring when the body is most amenable to improvement) has never yet failed! In the spring take Paine's celery compound.

This is the refrigerator of which Mrs. Rorer says—"You can put in it any thing that has an odor, together with milk and butter, leaving the two latter in open vessels without contamination." Hence its name,

THE "ODORLESS."

It needs no weekly scrubbing and scalding and it saves ice. In the end it costs less than so-called refrigerators that are sold for less money.
